

What kind of weather is typical in your hometown?

In my hometown, everyone has to endure a lot of rainy weather, more than people from dry places can ever imagine. We enjoy it as long as we are inside, but it rains so often which makes life kind of hard.

What's your favorite season?

I love Autumn because the scene of leaves falling off the trees is so beautiful. I also like the sound of the leaves crunching when I step on them.

What kind of weather do you like most?

I like the rainy weather at night as it helps me to sleep. Besides, I also like having cold weather because I can bundle loads of clothes on and get warm.

Do you prefer dry or wet weather?

I prefer dry weather as it gives me more opportunity to do something exciting, like outdoor sports. I don't like to be out in the wet weather, it messes up my clothes and it's so easy to get splashed with puddles.
