

Which city do you want to go to?

If I could have a chance, I would like to go to New York. From the movies I saw, I knew it's a place full of cultural diversity. I want to go and see the Statue of Liberty and visit many great museums the city has to offer.

What kind of cities do you like?

I like cities which have rich cultural traditions, such as Xi'an and Beijing. I like to visit the small allies in these cities where I can go back in time and have a totally new and different experience.

Do you prefer the city or the countryside?

I prefer the city because I've been living in cities for years and I'm used to city life. There're many fun places in urban areas where people can have an exciting life. There are also a lot more job opportunities in the cities than in the countryside.

Which city have you been to recently?

I went to Hangzhou last month. It is a city with both historical traditions and a thriving economy. The scenery around the West Lake is awesome, and the lake is within walking distance from the major shopping centers. I believe this city is a perfect place to live.

Do you like the city you are living in now?

Yeah. It's a city with a great variety of things to do. There are a couple of big shopping malls and some amazing parks where I can go with my friends. And it's also quite convenient to get around in my city.
