

Do you remember your friends in primary school? why?

Yes, remember most of them, if not all of them. The classes were small, so we were all pretty close. And most of us were from the same neighborhood, so I still see them now.

I do a ton of things with friends, like going shopping, singing Karaoke, reading. I like spending time with them.

How do you make friends?

Most of my friends are from school. When I meet fun people in a new class, I would start a conversation with them, and if we get along, we become friends.

Do you have many friends?

Yes, I do. I'm quite sociable, so people like to be friends with me. My friends and I usually have similar hobbies. But it's true that some friends are closer than the others.

Do you like chatting with friends online?

Not really. I prefer chatting with them in person, because I can see their expressions and listen to their tones, which are really important in communication.
