

What's the best time for you to study?

The best time is probably in the evening. It's very quiet and peaceful so I can sit at my desk and concentrate.

Who do you usually study with?

I normally study with my roommates. Since we have similar daily schedules, we are more likely to be available for each other. What's more, we can help one another because we study the same major.

What time do you like to study?

I prefer studying in the morning, because I can memorize things better. I often feel drowsy and tired in the afternoon, which is really not helpful.

Do you like to study alone or with your friends?

I like to study with my friends better. We can help each other and exchange our ideas through discussion when necessary.
