

Do you usually wear clothes in our favorite color?

It depends on the occasion. If I'm going to a wedding ceremony, I will go with my red dress and shoes. If I'm going to school, wearing red may draw too much attention from other students, so I would wear other colors to keep a low profile.

Are there any colors you dislike?

Grey and black are the colors that I normally dislike. I know some people would see these two colors as simple and classic, but they don't really appear to me.

Do you like dark colors?

Well, I don't. dark colors look cold and depressing to me, so I try to avoid buying anything in dark colors. If I were in a room where everything was grey or black, I wouldn't feel comfortable.

What's your favorite color?

I like red. My wardrobe is full of red pants, shirts and dresses. I even have a red sofa at home, believe it or not. Somehow I just love the spirit that red represents so I always buy red items.
