

What was your dream job when you were young?

I remember when I was a kid, I dreamt of being a scientist. I don't know what that dream was based upon because I was not good at science. I guess maybe it's a dream job for most boys.

How did you change your mind on your dream job?

When I got older, I became more realistic. I knew my dream of becoming a scientist would never come true when I failed many science exams. I decided to become a businessman after hearing the stories of some successful entrepreneurs.

What do you plan to do in the future?

In the future, when I graduate, I want to work in a multinational company. I think I can learn more in an international team with workmates from different backgrounds.

What kinds of jobs are popular in China?

As far as I know, jobs about internet are really popular these days because of the booming internet industry. Many students are studying to become computer programmers and web designers.

Have you had full-time or part-time job before?

Yes, I took a part time job last semester. I worked in an internet education company as an entry clerk. My job was to input all the texts into the computer system. I haven't had a full-time job yet.
