

Do you prefer electronic map or paper maps?

I like electronic map better since it's more detailed and handy. The paper maps are more for collection nowadays.

Who taught you how to use a map?

I think I taught myself how to use the map. If I need to go somewhere, I just open the map application on my phone, then I'll have to do is to follow the navigation.

Do you often use maps?

Yes, I have a poor sense of direction, so I rely on the map to find the places I want to go, especially somewhere I'm not familiar with.
