

Do you have a favorite teacher?

Yes. I really like my physical teacher in high school. He is good at using the examples in our everyday life to explain the concepts in our class, so it's much easier to understand.

What kinds of teachers do you like?

I would say it's the teacher who are nice and considerate. They tend to be very patient with the students and treat all the students fairly.

What's the difference between young and old teachers?

Young teachers are more energetic, so the classes can be livelier. Old teachers, however, are more experienced so they have better control of their classes.

Can you describe your high school teacher?

My Chinese teacher in high school is very experienced in teaching. Even though she was quite strict with us in class, she treated us very nicely in life. We all liked her.

Do you think teachers should be angry at students or not?

I don't think so. Teachers should remain calm when the students make mistakes. Getting angry will not help solve the problem and might have a negative impact on the students.

Do you want to be a teacher in the future?

Yes. If I become a teacher, I would have long summer and winter holidays. In the meantime, it's a very stable and respectable job.
