

Do you like boats?

Yes, I do. I always feel excited whenever I get on a boat, especially a speedboat or a cruise ship. Boats are usually the best option when we have to travel to a nearby island, so I like boats.

Would you like to have your own boat?

Definitely! If I have a boat or yacht, I would be able to go on a boating trip in the open sea with my friends. It would be so much fun! Unfortunately, boats are way too expensive for me.

Is boat trip popular in your country?

I think it's only popular in the coastal cities and some cities on the banks of rivers. In these places, boats can be convenient. However, in most of the inland areas, boats are not popular.
