

**What work do you do?**

I work. I have been working in an international trade company for three years. I'm in sales department and I think this job is very suitable for me because I could use what I have learned at school and at the same time, there 're a lot of new things for me to learn.

**Why did you choose to do that type of work (or that job)?**

Well, one of the most important reasons is that I did business major when I was in college, so I was able to put the knowledge I have gained in the courses into practice. Also, it's a well-paid job.

**Do you miss being a student?**

No. I think being a student is hard work because we had heavy workload and many things to learn. The school was exam-oriented, which means what we learned was not very practical.

**Do you like your job?**

Yes, I do like it. I've been working there for quite a long time. Even though it's a small office the work environment is relaxing. I don't have to dress up and the colleagues are nice and hospitable.

**Why did you choose to study that subject?**

Firstly, I could use the knowledge that I learn at high school. Secondly, I could meet people who share the same interest with me. This could be helpful.

**What subjects are you studying?**

"I'm doing accounting. It's practical and useful in getting a job and it gives me lots of confidence."

**Do you prefer to study in the mornings or in the afternoons?**

I prefer studying in the afternoons because the weather is generally pleasant and cool. I can go and study in the school library when I have no classes. What's more, I have the evenings to look forward to.

**Are you looking forward to working?**

Yeah. I think the best part of my life is when I get paid for something that I love doing. What's more, I think I'm still young, so I want to learn as much as can at work before starting my own business.

**Do you like your subject?**

I love it. I think it's awesome. To be honest, I've been interested in biology since junior high school. I always wanted to become a biologist. I feel like I'm getting closer to my dream now.
